

HOT-STOP® 'L'

LITHIUM ION FIRE CONTAINMENT KIT

BURN CERTIFIED

#60-322534

AREAS HOT-STOP® 'L' CAN BE BENEFICIAL

AVIATION

Private Travel
Commercial Airline Travel
(Cabin or Cockpit)

HEALTH CARE

Workstations On Wheels
Safety Standards Compliance
Risk Prevention

MODELS INCLUDE

Laptops
Flight Deck Tablets
Defibrillators
Cell Phones*

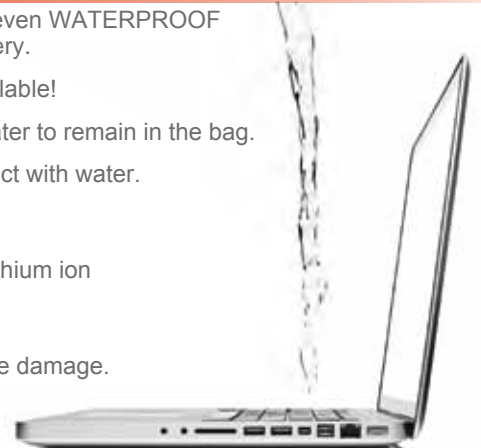

**(All models are shielded to contain cellular signals)*

Battery Chargers
Power Packs

What do you do with a lithium-ion battery powered device that is overheating? **WATER** or a **HALON FIRE EXTINGUISHER** won't contain a **LITHIUM ION FIRE!**

FLAWED LOGIC

- Some recently introduced smart phones and laptops are even WATERPROOF - thus preventing water from reaching the cells of the battery.
- Sometimes, large quantities of NO WATER is readily available!
- You will likely need to HOLD other bags upright for the water to remain in the bag.
- Information is available that says Li-Ion batteries don't react with water. Online videos from multiple sources indicate otherwise!
- FAA SAFO 16001 dated January 19, 2016 - Halon Fire Extinguishers are incapable of preventing a lithium ion battery fire/explosion.
- Bags that don't properly seal produce excessive SMOKE - requiring the need for masks and cause extensive smoke damage.
- Other "fire containment" apparatuses on the market have NOT BEEN BURN TESTED or CERTIFIED.

The HOT-STOP® 'L' Fire Containment Kit safely contains fires, explosions and smoke emissions from Lithium Ion powered devices without the aid of a water supply; however, HOT-STOP® products allow for the use of water, for airlines and operators complying with SAFO FAA recommendations. Fast and easy to use (5 quick steps), the light-weight HOT-STOP® 'L' Kits includes a pair of 14" fire safety gloves and will safely store a laptop, tablet, battery charger, or smart phone when not in use, contain an overheating device, or contain one that is in full thermal runaway.

PROVEN & TESTED

- Demonstrated with an entire laptop case, keyboard and all related combustibles.
- Demonstrated (IEP, Thomas Connolly/Owner) along with other candidate's products, and proven to contain laptop fires at the FAA Atlantic City Tech Center in 2007. HOT-STOP® 'L' was the ONLY product to successfully contain the runaway laptop and meet all performance criteria at the 2007 demonstrations. It again performed as required in 2008 demonstrations in which HOT-STOP® 'L' was the only candidate the FAA found worthy of retesting.
- Designed to contain a PED that reaches thermal runaway and contain it until it has burned itself out.
- Only fire containment product with Burn Certification.
- Independent laboratory tested by major airlines and flight operations. Fulfills all required parameters set forth by the FAA (contain fire, sparks & flames) with or WITHOUT WATER.
- Allows for the use of water so that airline operators can comply with FAA SAFO recommendations.
- Effective part of your Safety Management System (SMS)

For more information, contact Ray Goyco today at Baker Aviation, the exclusive distributor for HOT-STOP® 'L' products.

Introducing The Next EVOLUTION by HOT-STOP® 'L'

NEW PRODUCT EVOLUTION

- Zero Tolerance – Airtight Zipper Technology
- New Level of Protection from volatile Li-Ion powered devices
- Includes carry strap, and gloves
- Large bag (25x25) accommodates all devices including laptops, defibrillators, tablets, cell phones, portable chargers, battery packs, and more
- Simple and intuitive to use – less than 5 steps (compared to 20 or more steps with other options)
- Burn Certified and independent laboratory tested

VERSIONS	MEASUREMENTS		PRICE
EVOLUTION XL	25" x 25"	gloves included	\$2,850.00 With storage bag = \$2,900.00
EVOLUTION Laptop	20" x 20"	gloves included	\$2,575.00 With storage bag = \$2,650.00
EVOLUTION Tablet/iPad®	14.5" x 15"	gloves included	\$2,280.00
Hot-Stop® 'L' XL Kit	25" x 25"	gloves included	\$2,580.00
Hot-Stop® 'L' Laptop Kit	20" X 20"	gloves included	\$1,850.00
HOT-STOP® Tablet/iPad® Kit	14.5" x 15"		\$1,575.00
Large cell phone	Samsung note iphone 6+		\$ 349.00
Small cell phone			\$ 335.00
Gloves		pair	\$ 256.60

ADDITIONAL OPTIONS

Used on Laptop or Tablet Size Kits

Velcro Wall Mount		\$ 42.00
Reflective Carry Strap	red	\$ 74.50
Vinyl coated polyester Zippered Storage Bag	blue or red	\$ 84.50

FREE LIFETIME REPLACEMENT BAGS. If a HOT-STOP® bag is ever deployed to contain a thermal runaway of a Li-Ion powered device, Baker Aviation will replace it for free!
